DATA SCIENCE AND BUSINESS ANALYTICS

Mentor Profiles

THE MENTORED LEARNING MODEL

Mentored Learning is a unique offering of the PGP-DSBA program, one that enables you to interact with a current practitioner of analytics/data science each week and learn from their expertise and experience.

Mentors are not teachers or instructors but 'learning enablers'. In a traditional classroom, you are taught concepts during the class, following which you go home and practice on your own. The PGP-DSBA follows a "flip classroom" approach - you learn concepts via recorded lectures before you take part in the Mentored Learning session. In each session, your mentor demonstrates solutions to case studies and practice exercises, which help you understand how concepts are applied in the real world.

A significant advantage of mentored learning is the collaborative learning environment - you are interacting with not only your mentor but peers from diverse backgrounds as well - bringing in immense networking and collaborating opportunities with each session.

FREQUENTLY ASKED QUESTIONS

Who are the mentors in the program?
The program offers you the chance to interact with some of the best mentors in the industry. PGP-DSBA mentors are industry experts in the areas of data science and business analytics, who are working at leading companies across the globe. You can think of them as current practitioners who have extensively worked on and solved business problems using data analytics in the past.

How long are the mentored learning sessions?
Mentored learning sessions last for approximately 2 hours and take place on weekends.

How will I be matched to a mentor and a micro-class?
Your mentor and micro-class mapping will be done based on your current time zone and years of experience, to find the best possible match to maximise your convenience and learning.

Will the weekly mentored learning sessions be live?
All mentored learning sessions are live, with 2-way audio and video interaction. These sessions are conducted online with the help of software such as GoToMeeting or Zoom

MENTOR PROFILES

PGP-DSBA mentors are current practitioners of analytics & data science at leading companies across the globe. Below are the profiles of a few of the mentors engaged with us.

Shrinivas Shetty
Data Science Consultant at Fractal Analytics

Vikram Devatha
Data scientist

Ashish Kumar
Data Science Supply Chain Manager

Shirish Gupta
Senior Data Scientist, Deloitte (India)

Michel Semaan
Data Scientist

Olayinka Fadahunsi
Data Scientist, IBTC Bank (Nigeria)

Phumzile Phantsi
Data Scientist, ABSA Group (South Africa)

Eren Zedeli
Data Scientist, Imida (US)

Nitin Sethi
Senior Solutions Analyst, McKinsey & Co. (India)

Yafet Tamene
Lead Data Scientist, Zimare LLC (US)

Billy Odera
Senior Data Scientist, NCBA Group (Kenya)

Prateek Dorwal
Senior Data Scientist, AppOrchid Inc (US)

Anthonia Ohwovoriole
Data Scientist at Layer3

Bridget Huang
Data Scientist,
Apkudo (US)

Smita Agrawal
Data Scientist

Abhishek Gupta
Data Scientist,
HCL Technologies (US)

Harish Kumar
Paidimarri
Data Scientist || Mentor

Aakash Moghariya
Senior Machine Learning
Engineer, CBC (Canada)

Nicholas Olivier
Senior Data Scientist,
Fractal Analytics (US)

The mentors identified to lead the programs are industry leaders with a wealth of experience. If you are looking for personalized mentoring and training from experts, then look no further.

-Ndohnwi A Moma, United States
